

# **ECQI RESOURCE CENTER USER GROUP**

*February 15, 2022*

*Presenters:*

*Vidya Sellappan, CMS*

*Edna Boone, Jen Simkins, and Jen Seeman*

*CMS eCQI Resource Center Contractors*

# ECQI RESOURCE CENTER USER GROUP AGENDA

- Welcome
- Review of Recently Live Enhancements and Key Content
- Review of Enhancement List
- Discussion
  - Proposed InfoTRAC changes
  - Options for improvements to eCQM Resources
  - CQL Education
  - Open
- Next Steps
- Appendix
  - eCQI Resource Center User Group
    - Membership
    - Goals
    - Objectives

# SUBMITTING FEEDBACK DURING THE USER GROUP

- Polling Feature:
  - Look at right panel – one poll during this session
- General feedback:
  - Use the chat feature at anytime to provide input

# POLL 1 – USER GROUP MEMBERS IN ATTENDANCE

- Please respond to the poll in the polling feature
- Select the user type you most identify with:
  - A. CDS Developer/Steward/Implementer
  - B. eCQM Implementer working with Eligible Hospital and Critical Access Hospital - 15%
  - C. eCQM Implementer working with Eligible Professional and Eligible Clinician - 31%
  - D. eCQM Implementer working with Eligible Hospital, CAH, Professional and Clinician - 8%
  - E. Health IT Developer/Vendor - 15%
  - F. Measure Developer/Measure Steward - 31%
  - G. Other

Estimated responses

# ECQI RESOURCE CENTER NEW CONTENT &/OR LIVE ENHANCEMENTS

Enhancement	Source	Status
Measure Compare Phase Two	End Users	Live
Measure Collaboration Workspace Concepts and Testing Opportunities	eCQI RC Team End Users	Live
Value Set Links	End Users	Live
Education Home Page 'Cards'	End Users	Live

# DEMONSTRATIONS NEW ENHANCEMENTS AND CONTENT

- Measure Compare Phase Two
  - Workflow
    - Is the new workflow simpler for you as an end user? Yes, much better than in the past.
  - Compare Options
  - Download Options
    - Do the new options provide you with what you need? Yes, much better than in the past. When you download, is it supposed to download by filter? For example, if you select Changes Only, will it download only the changes or all information? It downloaded All Information for me.
- Measure Collaboration Workspace
  - Measure Concepts
    - Do you have any measure concepts to suggest?
  - Measure Testing Opportunities
    - Do you have any testing opportunities to add?

# DEMONSTRATIONS NEW ENHANCEMENTS AND CONTENT

- Pre-publication Document
- Value Set Links
  - Does the location of the value set links make sense for you? If not, is there somewhere else you would expect to see them? “That’s really fantastic”, “Place makes sense to me”, “I feel that is a perfect locations for the value set links”, “I think that correlates with the data elements so makes sense.”
- Education Cards

# APPROVED ENHANCEMENTS STATUS

<b>Enhancement</b>	<b>Source</b>	<b>Status</b>
InfoTRAC / Tools and Resources Update	End Users eCQI RC Team	Final Review
Advanced search/sorting for resources	End Users	In Development
Documentation for interpreting CQL logic-timing functions	End Users	In Development
Measure Selection	eCQI RC Team	In Discovery
'Get Started with eCQMs' improvements	End Users	In Development
Measure 'Shopping Cart' Feature	End Users	Planned
eCQM Data Element Repository USCDI integration	End Users eCQI RC Team	Removed
Standards Summary page improvements	End Users	In Development
Improvements to site FAQs/Q&As	eCQI RC Team	In Development

# SUGGESTED ENHANCEMENTS

<b>Enhancement</b>	<b>Source</b>
eCQM Jira Tracker integration	End Users
CMS Measures Inventory Tool (CMIT) integration	eCQI RC Team
Measure Collaboration Workspace or individual eCQM pages to include eCQM testing bundles	End Users
CQL Libraries - QDM based	End Users
CQL Libraries - FHIR based	eCQI RC Team
eCQM FHIR on-line Implementation Guide	eCQI RC Team
Individual measure pages – parsing HTML fields	End Users

# HQMF FIELDS ON THE ECQI RESOURCE CENTER

## Posted on eCQI Resource Center

- CMS eCQM Identifier
- NQF Number
- Measure Description
- Population Criteria
  - Initial Population
  - Denominator Statement
  - Denominator Exclusions
  - Numerator Statement
  - Numerator Exclusions
  - Denominator Exceptions
- Measure Steward
- Domain
- Measure Scoring
- Measure Type
- Improvement Notation
- Guidance

## Not posted and within html

- eCQM Version Number
- GUID
- Measure Period
- Measure Developer
- Copyright
- Disclaimer
- Population Criteria
  - Stratification
- Risk Adjustment
- Rate Aggression
- Rational
- Clinical Recommendation Statement
- Reference
- Definition
- Transmission Format

Recommended additional fields for parsing and inclusion in Measure Compare are highlighted.

# DISCUSSION

- Improvements to InfoTRAC
  - Review of final design
- Improvements to eCQM Implementation Resources Table
  - Updated hover over descriptions
  - New short descriptions on page
  - Categorized
  - Group most interested in Option 5 with a few interested in Option 3, saying the individual tables would be helpful for a newer user

eCQI TOOLS & RESOURCES LIBRARY

ECQM STANDARDS & TOOLS VERSIONS

EDUCATION

The eCQM tools and resources provide a foundation for the development, testing, certification, publication, implementation, reporting, and continuous evaluation of quality measures and their improvement. You can refine the tool list by selecting a category of interest and/or a role that best describes your needs, or you can also click a specific tool from the list below to view additional details.

### eCQM Informational Tools, Resources, & Collaboration

#### Find the Tools & Resources You Need

BY TITLE

BY CATEGORY Development

BY ROLE Measure Developer Apply

Category	Title	Role	Description
Development	<a href="#">CMS Measures Inventory Tool (CMIT)</a>	Measure Developer	The CMS Measure Inventory Tool (CMIT) is the repository of record for information about the measures which CMS uses to promote healthcare quality and quality improvement. CMS and its partners use this measure inventory to inform stakeholders, to manage its measure portfolio, and to guide measure development.
Development	<a href="#">CMS Blueprint</a>	Measure Developer	The Blueprint is a guidance document which provides a standardized system for developing and maintaining the quality measures used in various quality initiatives and programs. Includes information on Measure Development Concepts, Measure Lifecycle, eCQM Lifecycle, as well as Tools, Appendices, and Forms.
Development	<a href="#">Draft eCQM</a>	Measure Developer	This document provides guidance for those interested in understanding, using, and/or implementing eCQMs.
Development	<a href="#">JIRA</a>	Measure Developer	MUC, MUD and PCQM Apicid que nobis qui optatendi dem. Nem la doli volorer ferupti andunt. Nem la doli volorer ferupti andunt. omnimporerum voluptat prepratribusa net ut la ium none ni id ut odiam messi tem et quis eos dolest planimin con pla consecae etus aut a et dus cupatit aut eostrum faccae. Et eum litam nusa doloorpor aute possinum quae sint.
Development	<a href="#">Measure Authoring Tool (MAT)</a>	Measure Developer	The MAT is a web-based tool that allows measure developers to author eCQMs using the Quality Data Model (QDM). The tool provides the capability to express measure logic and export measures. The MAT provides the capability to express complex measure logic and export measures in several formats, including a human-readable document.
Development	<a href="#">Quality Positioning System (QPS)</a>	Measure Developer	QPS is a web-based tool developed by the National Quality Forum (NQF) to help people select and use NQF-endorsed measures. It allows a user to search for NQF-endorsed measures in a number of ways: export search results; and view types of measures
Development	<a href="#">Quality Data Model (QDM)</a>	Measure Developer	QDM is an information model that defines relationships between patients and clinical concepts in a standardized format to enable electronic quality performance measurement. The model is the current structure for electronically representing quality measure concepts for stakeholders involved in electronic quality measurement development and reporting.
Development	<a href="#">Unified Medical Language System® (UMLS)</a>	Measure Developer	UMLS® is a set of files and software that brings together many health and biomedical vocabularies and standards to enable interoperability between computer systems. UMLS® is used to enhance or develop applications, such as electronic health records, classification tools, dictionaries and language translators.

# ECQM IMPLEMENTATION RESOURCES OPTION 5 (SELECTED)

# CQL EDUCATION – FUNCTIONS

- Feedback received on the need for education on certain functions within the CQL specification
  - For example, 'Has Start' and 'Has End'
- Considering a short video approach:
  - Group together similar functions like 'Has Start' and 'Has End'
  - Show examples using current program measures
  - Walk through how the function will output the desired result
  - All done in a video format so viewers can pause can go back as needed
- Looking for feedback:
  - Is this granularity of information helpful?
  - Is video a useful format?
  - Would it be helpful to also publish a pdf?

## Per Users:

- Video tutorials combined with PDF "quick guide" would be excellent.
- That is very helpful information. The pdf is also helpful for educating staff involved with eCQMs and implementation.
- Would be very useful. Perhaps adding these to a wiki which would group everything together would be useful. Also, some tutorials on harder concepts - like datetime comparison precision comparisons, union operations, etc.

# OPEN DISCUSSION

# ECQI RESOURCE CENTER USER GROUP NEXT STEPS

- Send feedback and suggestions for site improvement to [ecqi-resource-center@hhs.gov](mailto:ecqi-resource-center@hhs.gov)
- Attend the next eCQI Resource Center User Group Meeting: April 19, 2022 at 3pm EST
- Add meeting series to your calendar: <https://ecqi.healthit.gov/events/1431>
- Review past meeting notes on the [eCQI Resource Center User Group](#) page

# APPENDIX

- eCQI Resource Center User Group Membership
- eCQI Resource Center Goal
- eCQI Resource Center Objectives

# ECQI RESOURCE CENTER USER GROUP MEMBERSHIP

- Volunteer forum of stakeholders who use the electronic clinical quality improvement (eCQI) Resource Center to obtain key resources necessary for electronic clinical quality measure (eCQM) development, implementation, and reporting and education about eCQM and eCQI concepts and standards.
  - Open membership
  - Bi-monthly meetings held the third Tuesday at 3pm EST
    - April 19
    - June 21
    - August 16

# ECQI RESOURCE CENTER USER GROUP GOAL

- Provide broad stakeholder input in the development and maintenance of the eCQI Resource Center's functionality and content to support the eCQI community.
  - Identify, discuss, and review the needs of the eCQI implementer community.
  - The outcome of discussions will result in suggested enhancements to the Centers for Medicare and Medicaid Services (CMS) eCQI Resource Center COR for approval.
  - Approved suggestions for enhancements will result in implementation on the eCQI Resource Center, deeper investigation at eCQI Resource Center focus groups, and/or be placed on the eCQI Resource Center backlog suggestion list.

# ECQI RESOURCE CENTER USER GROUP OBJECTIVES

- Focus on the implementer community including the usability of and gaps in resources provided
- Inform users of new functionality and content
- Gather real-world feasibility and community feedback on proposed eCQI Resource Center enhancements and features
- Provide eCQI Resource Center focus group opportunities
- Prioritize items for in depth discussion during eCQI Resource Center focus groups
- Advance CMS's understanding of implementer needs for Fast Healthcare Interoperability Resources® eCQMs
- Understand the needs of the eCQI community
