# **DISCUSSION**

- Home page
  - Is there a preference for News and Events vs featured resources?
  - Should we move featured resources to the bottom or keep as is?
  - Consider tightening up the page by reducing the size of the featured resources so News and Events are visible before the page fold.
- Implementation resources
  - Short description vs tooltip hover over or both?
  - Would you prefer more information in the table or the short description with option to see more?
  - Suggest no changes from the new format

# OPEN DISCUSSION

- eCQM pages
  - When you search on eCQMs, it is not clear how to return to the page without the search applied.
  - Suggest Reset button to take you back to the eCQM page without the search.
