CMS Quality Reporting Program Using eCQMS

- CMS publishes eCQMs for inclusion or potential inclusion in several quality reporting programs:
 - [Advanced APM: Primary Care First \(PCF\)](#)
 - [Hospital Inpatient Quality Reporting \(IQR\) Program](#)
 - [Hospital Outpatient Quality Reporting \(OQR\) Program](#)
 - [Medicare Promoting Interoperability EHR Incentive Program for Eligible Hospitals and Critical Access Hospitals](#)
 - [Medicare Shared Savings Program: Accountable Care Organizations \(ACOs\)](#)
 - [Quality Payment Program: The Merit-based Incentive Payment System \(MIPS\) and Advanced Alternative Payment Models \(Advanced APMs\)](#)

Where do I go for help regarding use of eCQMs in CMS Quality programs?

eCQM Implementation Questions ONC Project Tracking System (Jira)

[Learning Resources](#)[Create an Issue Ticket](#)[Search for an Issue](#)[Create An Account](#)[Log In](#)

The ONC Project Tracking System is a collaboration platform in which users can log, track, and discuss issues with subject matter experts in support of health information technology implementation. It also provides tools to facilitate knowledge sharing and agile project management.

Reminder:

This is an open platform that does not intend for users to communicate sensitive or confidential information such as protected health information and personal identifiable information.

CMS Policy/Quality Reporting Program Questions

- Hospital Inpatient Quality Reporting (IQR) Program, contact the Hospital Inpatient Support Team at https://cmsqualitysupport.servicenowservices.com/qnet_qa or (844) 472-4477.
- Medicaid eligible professionals and Medicaid only eligible hospitals participating with the Medicaid Promoting Interoperability Program should contact their state Medicaid agencies.
- Medicare Promoting Interoperability (formerly EHR Incentive) Program for Eligible Hospitals and Critical Access Hospitals contact [QualityNet Service Center](#), (866) 288-8912, or QNetSupport@cms.hhs.gov.
- Outpatient Quality Reporting (OQR), contact [QualityNet Question Answer](#) website.
- Quality Payment Program (QPP), contact QPP@cms.hhs.gov or (866) 288-8292.

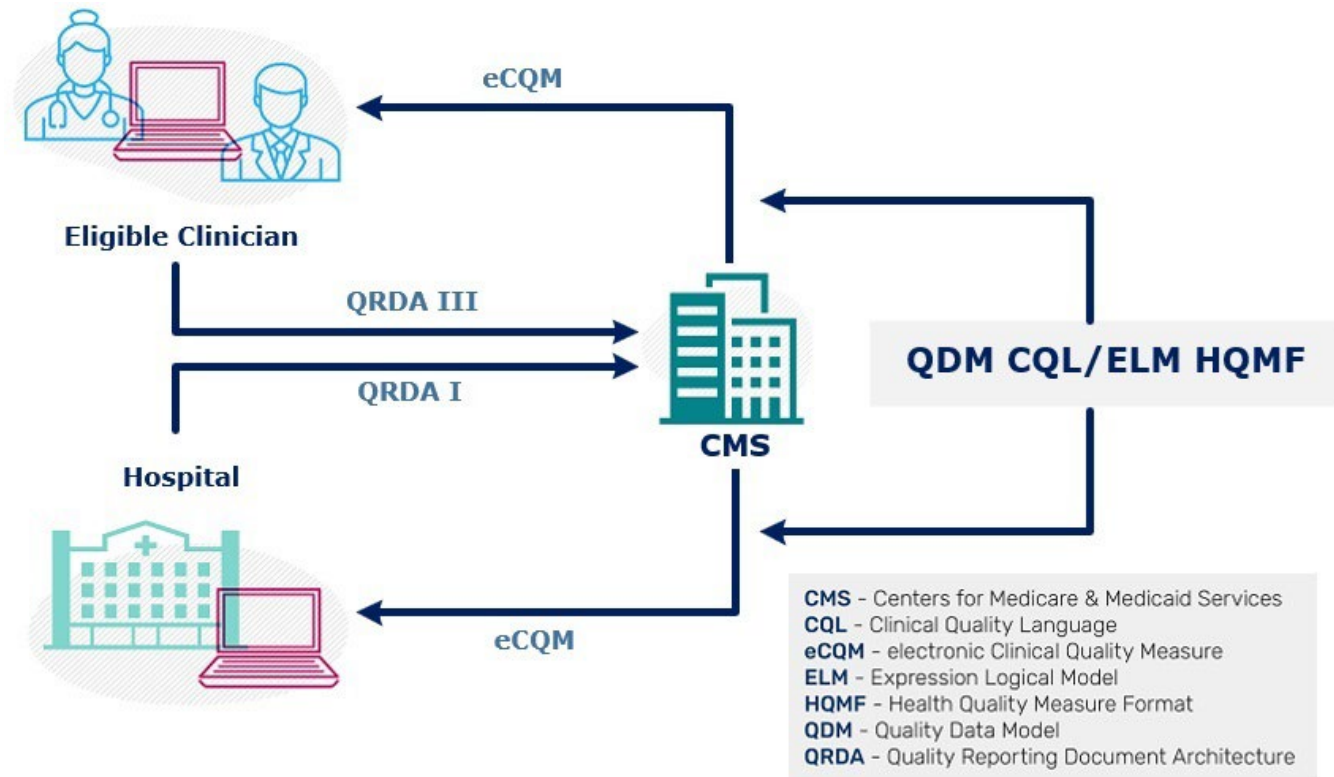

What and how do I report eCQMs to CMS?

Quality Reporting Document Architecture (QRDA)

- The QRDA is the data submission standard used for a variety of quality measurement and reporting initiatives. It creates a standard method to report quality measure results in a structured, consistent format and can be used to exchange eCQM data between systems.
- A Health Level Seven International® (HL7) Clinical Document Architecture (CDA)-based standard, which further constrains CDA Release 2 for exchange of eCQM data.
- [CMS publishes QRDA Implementation Guides \(IGs\), Schematrons, and sample files annually to provide technical guidance for implementing the HL7 QRDA standards for reporting to CMS quality programs.](#)

QRDA (Cont'd)

- QRDA was adopted by ONC as the standard to support both QRDA Category I (individual patient) and QRDA Category III (aggregate) data submission for quality reporting. This figure depicts the use and flow of the eCQM transmission standards.

Testing QRDA: CMS QRDA Pre-Submission Validation Tools

- [Cypress](#) QRDA validation tool
 - The Cypress QRDA validation tool provides implementers with the ability to validate the conformance of QRDA Category I and Category III documents to CMS implementation guides.
- CMS Quality Reporting System – for eligible hospitals and critical access hospitals
- [For the most up to date information, see the CMS QRDA Pre-Submission Validation Tools page on the eCQI Resource Center](#)

Where to Submit eCQMs

- Eligible Clinicians – via [QPP](#) website – must have a QPP account
- Hospitals – via Hospital Quality Reporting page must have a [HCQIS \(Health Care Quality Information Systems\) Access and Roles Profile \(HARP\) account](#)

Where do I find more information about the eCQMs?

Connect

Electronic clinical quality measures (eCQMs) are measures specified in a standard electronic format using data electronically extracted from electronic health records (EHRs) and/or health information technology (IT) systems to measure the quality of health care provided. The Centers for Medicare & Medicaid Services (CMS) uses eCQMs in a variety of quality reporting and value-based purchasing programs.

There are several benefits of using eCQMs:

- eCQMs use clinical data to assess the outcomes of treatment by measured entities.
